Full-Stack Developer | React & Flutter | Python & FastAPI | Mobile & Web

CS student at FAST NUCES (graduating 2026) with hands-on experience building full-stack web and mobile applications. I've shipped production software for clients across real estate, healthcare, and SaaS - working across React, Flutter, FastAPI, and Node.js. I'm comfortable owning features end-to-end, from backend APIs to polished UIs, and have picked up strong CI/CD and deployment experience along the way.

EDUCATION

FAST NUCES | Bachelor of Computer Science

Lahore, Punjab | 09/2022 - 06/2026

Government College Lahore | FSC

Lahore, Punjab | 08/2020 - 06/2022

SKILLS

Frontend: React, React Native, TypeScript, JavaScript, Tailwind CSS - 2+ yrs building responsive UIs, ecommerce storefronts, and scalable agency infrastructure.

Mobile: Flutter - cross-platform apps for international clients including management and regulatory solutions.

Backend: Python, FastAPI, Node.js, Laravel - REST APIs and real-time systems for high-traffic platforms.

Databases: Supabase, SQL - real-time databases supporting high-traffic real estate and medical platforms.

QA & CI/CD: Playwright, Cypress, GitHub Actions - automated test frameworks and parallelized pipelines.

Other: PyTorch, Cloudinary, Git

EXPERIENCE

Axelliant | Automation & CI/CD Engineer

Lahore, Punjab | 04/2025 - 02/2026

- Engineered CI/CD infrastructure using GitHub Actions with parallelized pipelines, reducing build times and improving deployment reliability across multiple client projects.
- Built automated test frameworks (Playwright, Cypress) integrated into CI/CD workflows, cutting hybrid system testing from 2-3 days to 2 hours and enabling faster release cycles.

Ashtex Solutions | Software Engineer & Assistant Project Manager

Lahore, Punjab | 06/2024 - 10/2024

- Developed and shipped web application features using React and automation tooling for client-facing products.
- Managed project documentation, sprint delivery, and cross-team delivery coordination across multiple concurrent projects.

Arrivy | QA Engineer (Intern)

Lahore, Punjab | 06/2023 - 08/2023

- Led QA for an employee management system and automation tool; both shipped to active production use.
- Maintained delivery schedules and quality standards as part of a 7-member cross-functional intern team.

PROJECTS

DeepShield (FYP) - AI/deepfake detection backend (FastAPI + PyTorch) using a UCF dual-encoder model and Xception CNN, with Grad-CAM++ explainability and a four-band forensic confidence scoring system. [GitHub](#)

Arabia Hills - Real estate platform (React + Supabase) managing 20+ listings with sub-second data retrieval. [GitHub](#)

WePsych - Flutter app for an Austrian firm handling psychiatric laws and daily practice operations; reduced admin overhead by ~30%.

ALFA CLUB - React ecommerce storefront for alfaclub.ca with 90+ Lighthouse score and optimized mobile checkout flow. [GitHub](#)

Zillabyte & CCHROME - Agency and portfolio sites built with React + Cloudinary; media load times reduced by up to 40%. [GitHub](#)
